

■ Fits of cop_0191 between the 1% and 99% quantiles (980 of 1000; 20 outside not shown; 449 of 1000 converged)

— US benchmark, theta of Omega_inv[2,0] = 0.1023

⋯ Median over all fits, theta of Omega_inv[2,0] = 1.144

— Averaged parameter set used for the IRF, theta of Omega_inv[2,0] = 1.152
