

■ Fits of cop\_0191 between the 1% and 99% quantiles (980 of 1000; 20 outside not shown; 449 of 1000 converged)

— US benchmark,  $\theta$  of  $\Omega_{inv}[2,2] = -1.754$

- - - Median over all fits,  $\theta$  of  $\Omega_{inv}[2,2] = -1.98$

- - - Averaged parameter set used for the IRF,  $\theta$  of  $\Omega_{inv}[2,2] = -1.966$
