

■ Fits of cop_0191 between the 1% and 99% quantiles (980 of 1000; 20 outside not shown; 449 of 1000 converged)

— US benchmark, theta of alpha2[0,0] = -0.009453

⋯ Median over all fits, theta of alpha2[0,0] = 0.1349

— Averaged parameter set used for the IRF, theta of alpha2[0,0] = 0.1361
